SUMMARY

Data Engineer and Analyst with 4+ years of experience delivering scalable data solutions in the banking and financial services domain for a major US bank client. Skilled in SQL (window functions, CTEs, complex joins), Python, PySpark, Spark, Hadoop, and Hive, with hands-on experience processing datasets of 100M+ records and reducing data defect rates by 90%. Comfortable translating complex data problems into actionable insights and communicating findings to cross-functional teams and business stakeholders. Microsoft Azure certified (AI-102, DP-900, AZ-900), with a strong foundation in scalable data processing and a keen interest in advancing into analytics and data science.

PROFESSIONAL EXPERIENCE

Infosys Limited – Technical Analyst – Major US Bank

Jan 2022 – Present

- Built and maintained large-scale data processing pipelines using Python, PySpark, Spark, SQL, and Hadoop within a banking and financial services environment, directly contributing to a 20% improvement in data processing efficiency and a 90% reduction in data defect rates.
- Wrote complex SQL queries including window functions, CTEs, and multi-table joins to support data validation, reconciliation, and reporting for the bank's financial data pipelines.
- Used Teradata SQL and Vertica SQL extensively for large-scale data extraction and transformation across datasets exceeding 100 million records per table.
- Built and optimised SQL-based data quality tools and checks, reducing data defect rate by 90% and ensuring downstream data reliability for business-critical reporting.
- Supported and tested a SAS-based enterprise application, writing SAS scripts and macros to automate data validation, transformation, and quality checks — ensuring accurate and consistent output across environments during deployment cycles.
- Leveraged Autosys scheduling tool for advanced workload automation, enhancing visibility and control over complex job scheduling and task execution, improving operational efficiency by 20%.
- Managed code versioning and collaboration through Bitbucket (Git), facilitating seamless version control, code reviews, and collaborative development across teams.
- Solely managed all testing (performance and unit test cases) and deployment-related tasks, overseeing transition from lower environments to production, ensuring smooth and error-free releases.
- Conducted regular communications with LOB partners to understand requirements and ensure alignment with project objectives, proactively addressing needs and delivering optimal solutions.
- Collaborated with Product Owners, Product Managers, Scrum Masters, and Data Engineers in a Scaled Agile framework across Development, Testing, and Deployment phases.
- Led a team to consistently achieve sprint objectives, conducting regular presentations to senior stakeholders to track progress and address emerging issues.

Genpact India PVT LTD – Process Associate

May 2016 – Oct 2017

- Prepared and maintained daily operational reports for work allocation and process performance tracking, ensuring accurate data-driven task distribution across a team of 10+.
- Streamlined business processes using AS/400 and Savvion, reducing manual effort and improving operational efficiency — recognised with the Best Team Player Award (2016–17).
- Trained 4–5 new joiners on organisational workflows and reporting systems, accelerating onboarding and improving team productivity.

EDUCATION

Aurora's PG College (Affiliated to Osmania University, Hyderabad)

Master of Computer Applications (MCA) 71% | 2017 – 2020

Core coursework: Mathematics, Statistics, Data Structures, Algorithms, Database Management Systems, Operating Systems

Vignana Jyothi Institute of Arts and Sciences (Affiliated to Osmania University, Hyderabad)

Bachelor of Commerce (Computers) 69% | 2013 – 2016

Core coursework: Business Mathematics & Statistics, Business Economics, Financial Accounting, Information Technology, C & C++ Programming

Bhavan's Sri Aurobindo Junior College (Board of Intermediate Education, Hyderabad)

MEC – Mathematics, Economics & Commerce 65% | 2011 – 2013

G R Grammar School (Board of Secondary Education, Hyderabad)

Secondary School Certificate (SSC) 60% | 2010 – 2011

PROFESSIONAL SKILLS

- **Big Data Technologies:** Apache Spark, PySpark, Hadoop, Hive, HDFS
- **Database & Query Languages:** SQL (4+ years), Teradata SQL (3+ years), Vertica SQL, HQL
- **Programming Languages:** Python, Korn Shell Scripting
- **Analytics & Visualisation:** SAS, Tableau, Advanced MS-Excel
- **Cloud & Certifications:** Microsoft Azure (AI-102, DP-900, AZ-900, AI-900)
- **Tools & DevOps:** Autosys, Bitbucket, GIT, Jira, DataStage
- **Operating Systems:** Unix/Linux, Windows

CERTIFICATIONS

- [Microsoft Certified: Azure AI Engineer Associate \(AI-102\)](#)
- [Microsoft Certified: Azure Data Fundamentals \(DP-900\)](#)
- [Microsoft Certified: Azure Fundamentals \(AZ-900\)](#)
- [Microsoft Certified: Azure AI Fundamentals \(AI-900\)](#)

ACHIEVEMENTS & AWARDS

- Infosys Delivery Excellence Award — 2024–25
- Infosys Glory Award — 2023–24
- Genpact Best Team Player Award — 2016–17

INTERESTS & COMMUNITY

- A YouTube channel (youtube.com/pwgindia) focused on Python and technology concepts, sharing knowledge with the broader tech community.
